PINNACLE METAL WORKS

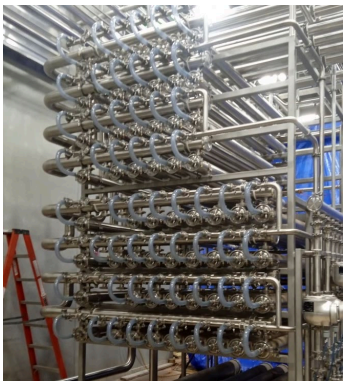

CAPABILITIES STATEMENT

Industrial Welding & Process Piping

Pinnacle Metal Works is an Ohio-based contractor for sanitary stainless and carbon steel process piping, stainless fabrication and equipment installation in food, beverage and industrial plants, from single equipment hookups to complete skid systems and plant-wide piping. Our team brings over 12 years of welding and process piping experience, and our crews work in active plants across the United States.

CORE CAPABILITIES

Process piping

- Sanitary 316L stainless tubing and tri-clamp systems
- Carbon steel Schedule 40 process and utility piping
- Steam lines, hot water systems and skids

Fabrication

- Skid frames and pipe supports
- Modular process skids and valve matrices
- UV treatment and filtration systems
- Platforms, stairs and railings
- Custom fabrication to your spec

Installation

- Equipment hookups and tie-ins: kettles, heat exchangers, chillers, tanks
- Industrial TIG welding, stainless and carbon steel
- Turnkey insulation through partner crews

INDUSTRIES SERVED

Food & beverage | Dairy | Pharmaceutical | Chemical | Agricultural | Oil & gas refining

RECENT PROJECTS

Tank staircases & process piping – Columbus, OH
Six stainless steel tank staircases plus sanitary process piping for a national beverage manufacturer.

Chiller installation – Nashville, TN
New Mueller chiller set by crane and piped into a food plant's production line.

Cheese plant process piping – Minnesota
TIG-welded sanitary stainless piping, valves and fittings, hydrotested to food-grade standards.

SAFETY & COMPLIANCE

- Prequalified through ComplyWorks and Veriforce
- OSHA 10 / OSHA 30 trained crews
- General liability and workers' compensation insurance
- Certificates of insurance available on request

12+ years
Team welding & process piping experience

Up to 30
Workers available for a single project
